

Utah House Tour

Wednesday 2:00 – 3:00 pm - Tour Time

Thursday 1:00 – 2:00 pm - Tour Time

Discover how the Utah House is promoting sustainable use of all resources, energy efficiency, water conservation, healthy indoor environments, and universal design principles. The Utah House seeks to share the vision of preserving our natural resources for future generations. Efficient use of resources (energy, water, materials, land), minimization of waste, conservation of the natural environment, and creation of a healthy built environment are all part of sustainable design. The Utah House is about 60% more energy efficient than regular houses its size. Water conservation measures such as rainwater collection, water-wise landscaping, and water efficient fixtures and appliances help the Utah House use 500-70% less water than traditional homes and landscapes in Utah. The Utah House uses healthy building materials; interior finishes, and design strategies.

DIRECTIONS TO THE UTAH HOUSE

The Utah House Tour is located within blocks of Davis High School at 920 South 50 West, Kaysville, Utah.

- Turn south and drive 0.6 miles to the traffic light at 350 South. (Davis High is at 325 South Main)
- Turn west (right) and drive 0.2 miles to the stop sign at 50 West.
- Turn south (left) and drive 0.5 miles to the Utah House parking lot entrance on the west side of the street.

Fee for the Tour paid for by FACS/USOE.
